BUDTENDERS WILL REPLACE PHARMACISTS

The Untrained Pot Enthusiasts Behind the Counter.

(Definition according to Urban Dictionary) Budtender (n): A Barista that can't pass a drug test. Someone that works at a medical marijuana store selling buds.

You won't find a single pharmacist behind the counter of any Amendment 2-style Pot Shop. Instead, you'll find a so-called Budtender with no medical or professional training whatsoever.

While a licensed Florida Pharmacist has to earn a Doctorate of Pharmacy, pass two intensive licensing exams and have over 2,000 hours of clinical experience,

a Budtender's knowledge and qualifications are based solely on his or her own personal use of marijuana.

JOHN MORGAN HOPES SENIOR CITIZENS ARE DEAD (AND CAN'T VOTE)

DEATH TO OLD PEOPLE isn't what he said, but we all know it's what he meant. After Amendment 2 was defeated for the first time in 2014, John Morgan told News 13: *"The people who voted against this are the old people."* But what "Mister Marijuana" went on to say next is infuriating:

With 500,000 patients, Florida would eclipse the number of recreational users in Colorado, where medical marijuana is a \$1 billion-a-year industry, and would be the biggest legal marijuana market outside of California. "It's a gold rush," Morgan said of the interest in Florida.

John Morgan Drunken Rant

"There's no doubt there will be doctors who abuse this ..."

- John Morgan, Orlando Sentinel <http://bit.ly/2bzap4n>

AMENDMENT 2 IS DE FACTO LEGALIZATION

If Florida's Pill Mill explosion taught us anything, it's that Florida is home to enough unscrupulous doctors to hook thousands of Floridians onto dangerous drugs. Amendment 2 offers these same doctors yet another golden opportunity to make a quick profit as **Pot Docs**. John Morgan said it himself: "It's a gold rush."

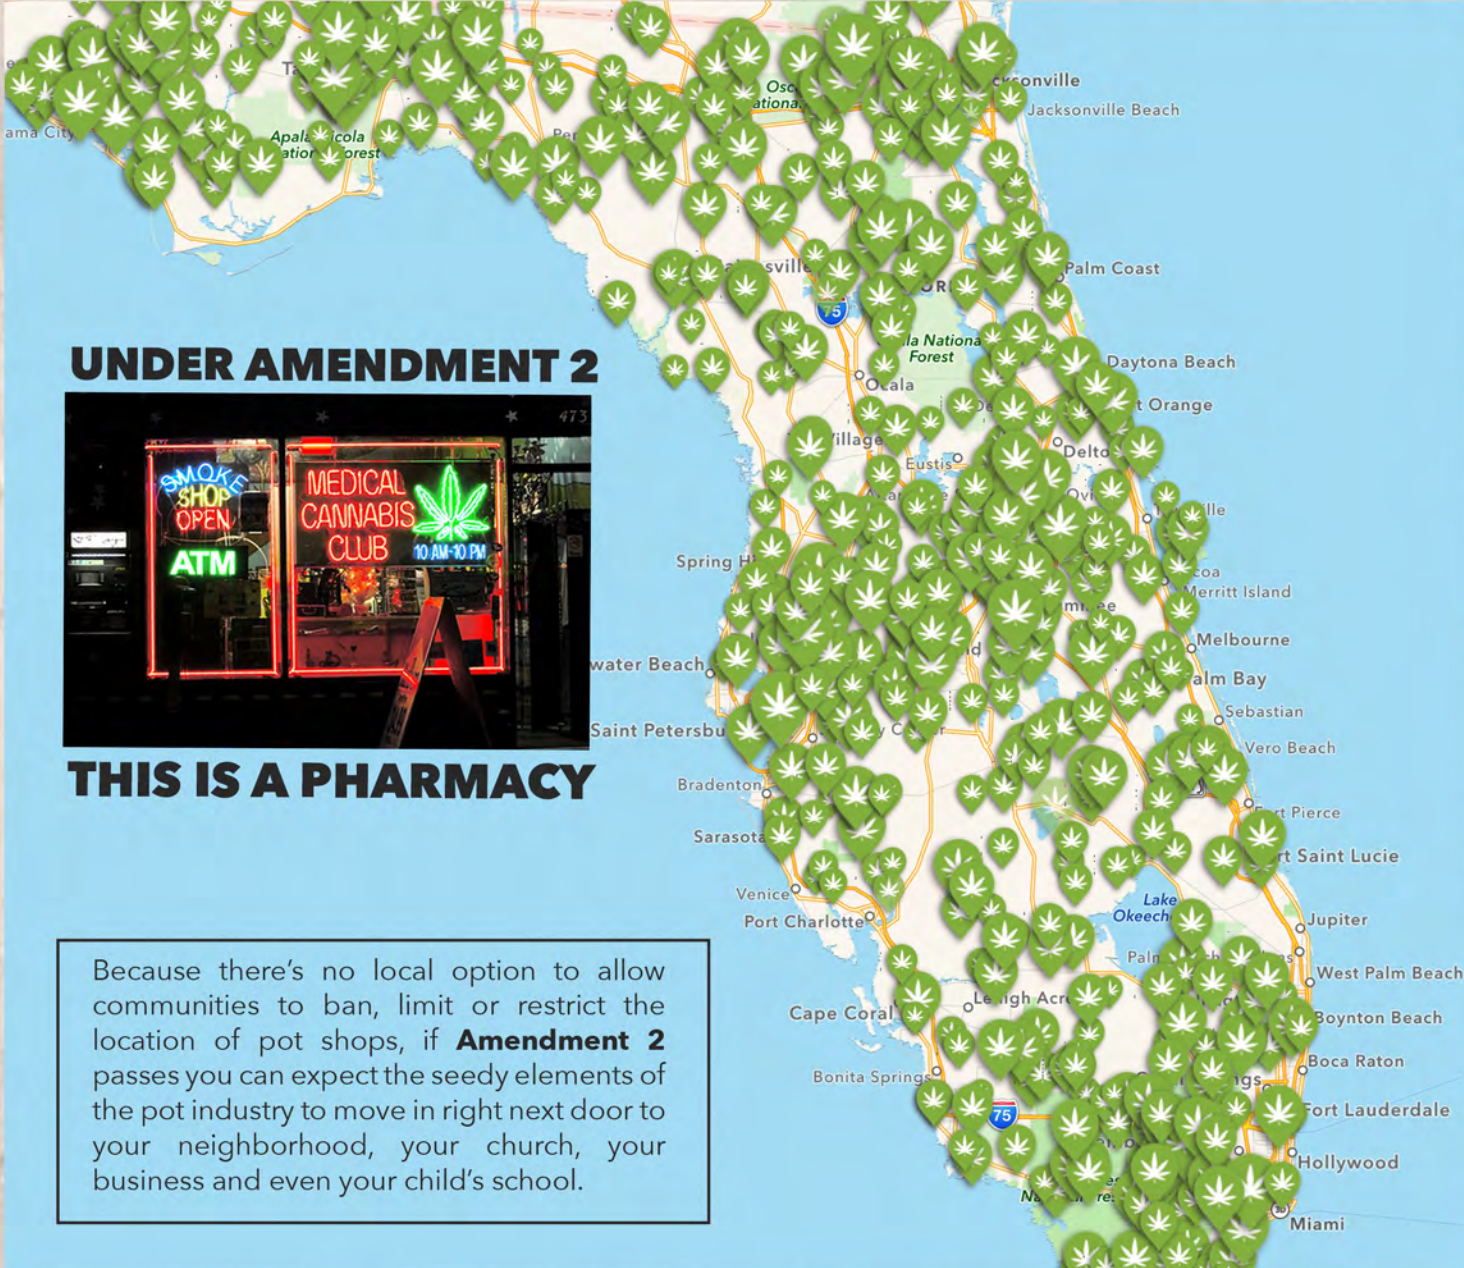

The authors of Amendment 2 tried to hide their gaping **Pot Legalization Loophole** behind a long list of conditions, but if you read close enough, you'll find this clause: "... or any other debilitating medical conditions of the same kind or class as or comparable to those enumerated ..."

Just like in California, anyone with **anxiety, migraines, trouble sleeping** or a **sore throat** will be able to legally purchase pot.

2,000 POT SHOPS IN FLORIDA?

The Florida Department of Health estimates Florida will be home to 1,993 pot shops.

AMENDMENT 2 WILL BRING KID-FRIENDLY POT CANDY TO FLORIDA
