AMERICAN JOBS PLAN

AMERICAN JOBS PLAN

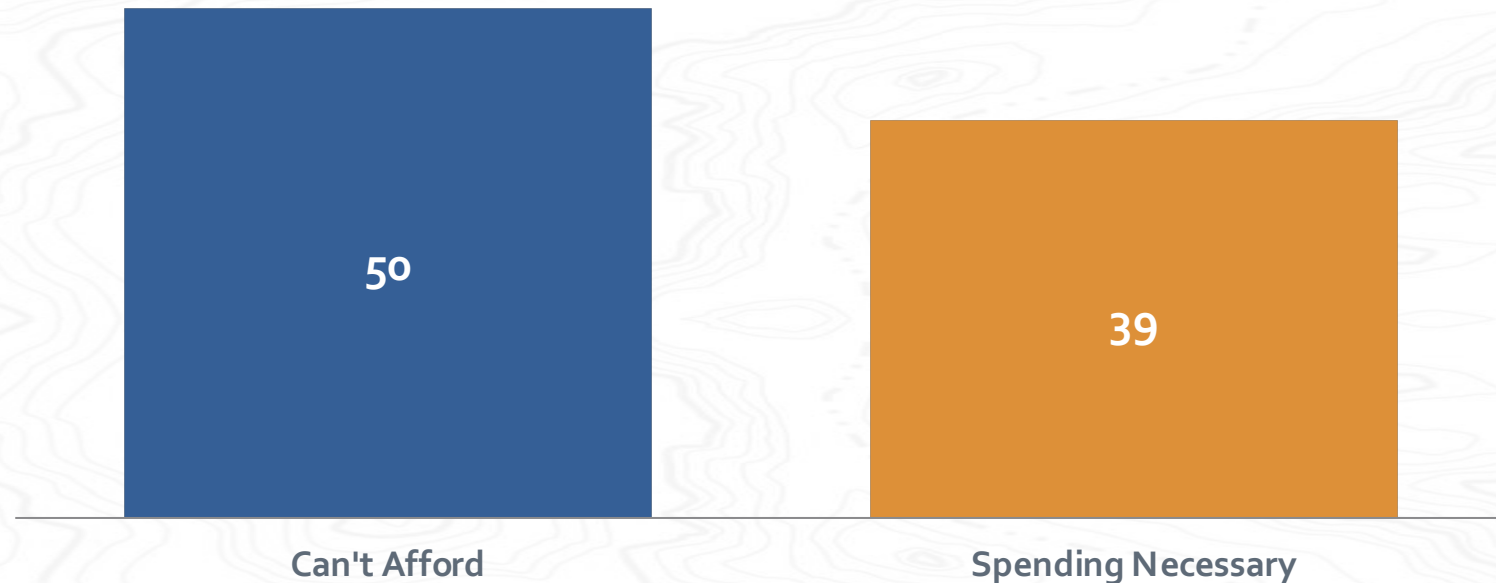

As you may know, Joe Biden has proposed an increase in Federal spending of over 11 trillion dollars over the next ten years. With this in mind please tell me which of the following comes closest to your opinion.

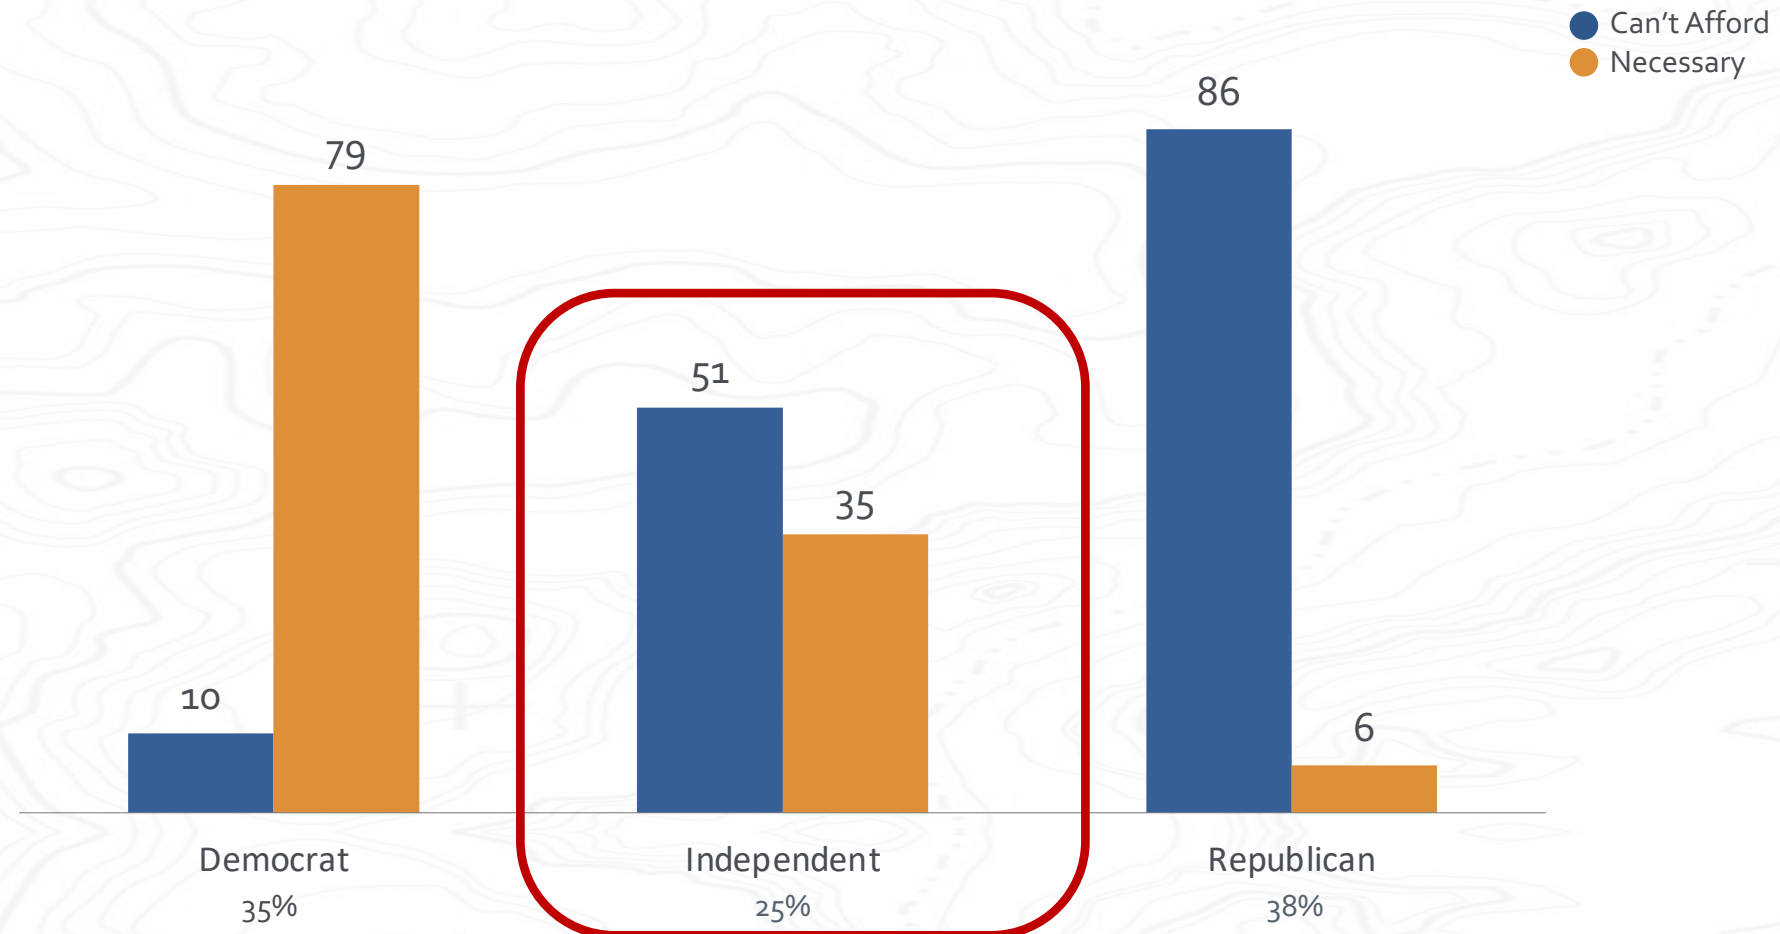

Some say that America is already 28 trillion dollars in debt, and we cannot afford to increase spending this much. They say that we are already experiencing inflation that will only increase to catastrophic levels if federal spending continues to increase.

Other people say that this increase in federal spending is necessary to help American families get back on their feet after the pandemic. They say that the increased spending will create thousands of good paying jobs while rebuilding our infrastructure and putting our economy on better footing.

SPENDING HEAD-TO-HEAD

Thinking about the recent spike in inflation, please tell me if you agree or disagree with the following statement. The increase in inflation is due to Joe Biden's economic policies.

INFLATION BLAME

Less Likely ← → More Likely

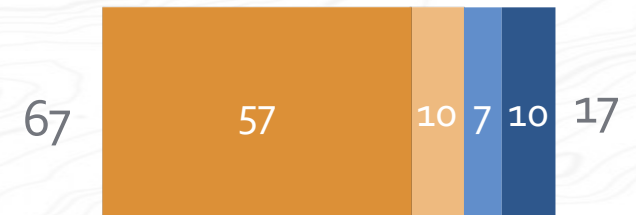

The proposals will increase the cost of energy and gas for everyday Americans by reducing domestic energy production and making us more reliant on countries like China, Russia, and the Middle East.

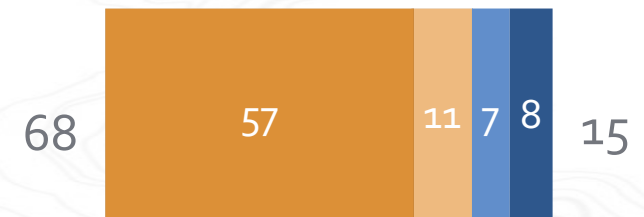

Democrats want to send billions of dollars to unelected bureaucrats in Washington who will choose which projects to invest in with zero accountability or transparency to the American taxpayer.

President Biden has proposed a staggering total of \$6 Trillion Dollars in new spending with a \$3 Trillion Dollar tax hike.

Only 7% of Biden's Infrastructure Plan goes to traditional infrastructure. Electric vehicle recharging stations for the rich get more funding than roads and bridges for all Americans. And, it does nothing to streamline permitting of those infrastructure projects.

BIDEN SPENDING SERIES AMONG INDEPENDENTS

Please tell me if you agree or disagree with the following statement. Overly generous welfare and unemployment benefits are preventing people from looking for work despite job openings due to the fact that the government is paying them to stay at home.

WELFARE AND UNEMPLOYMENT

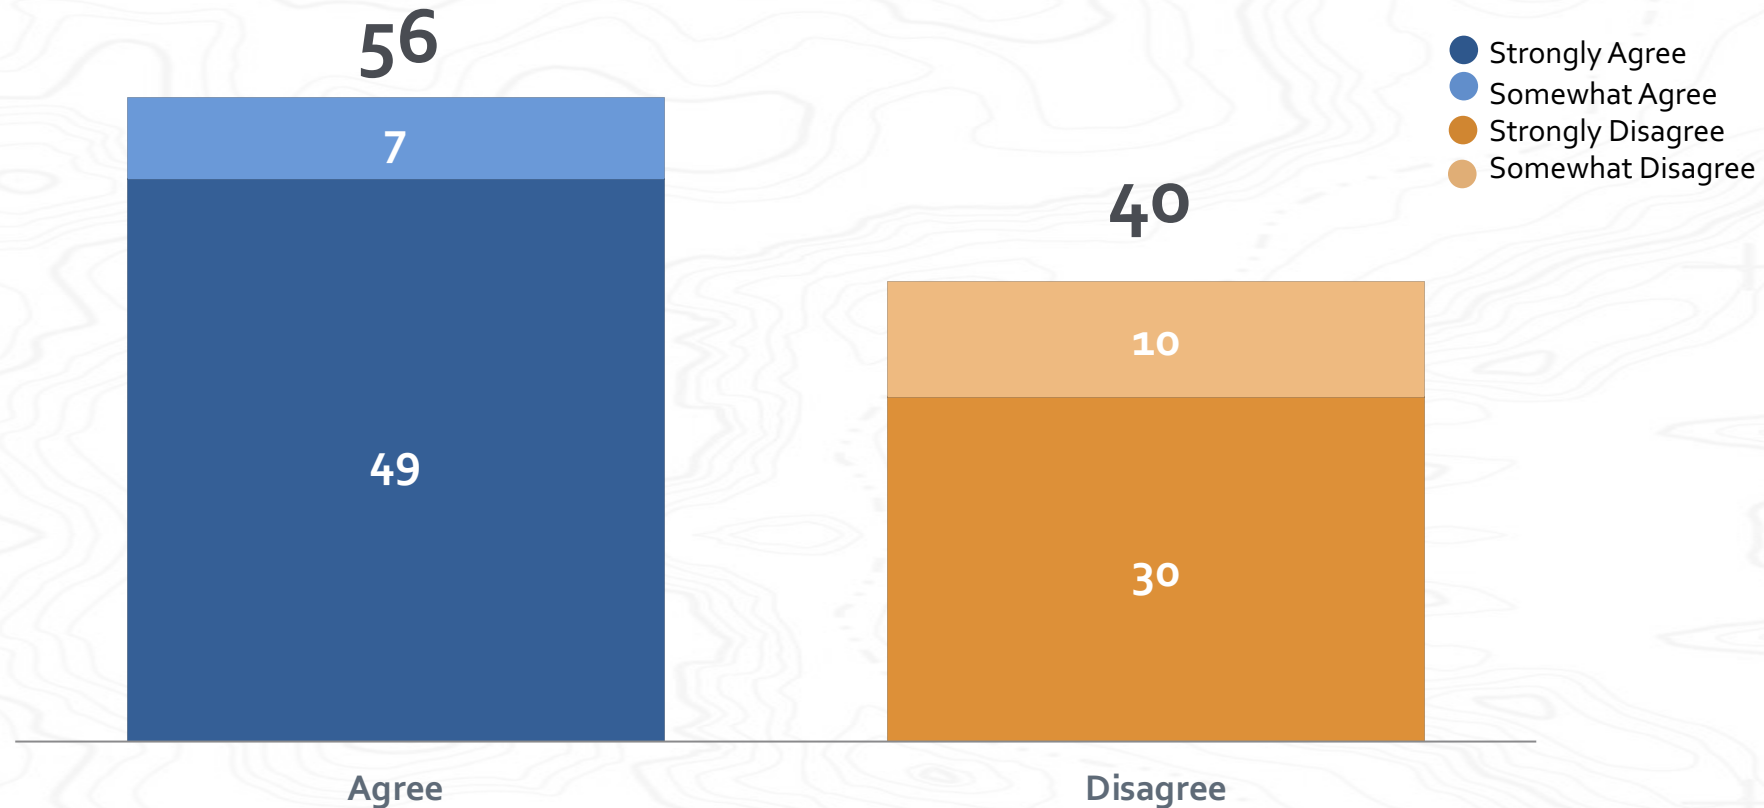

Immigration

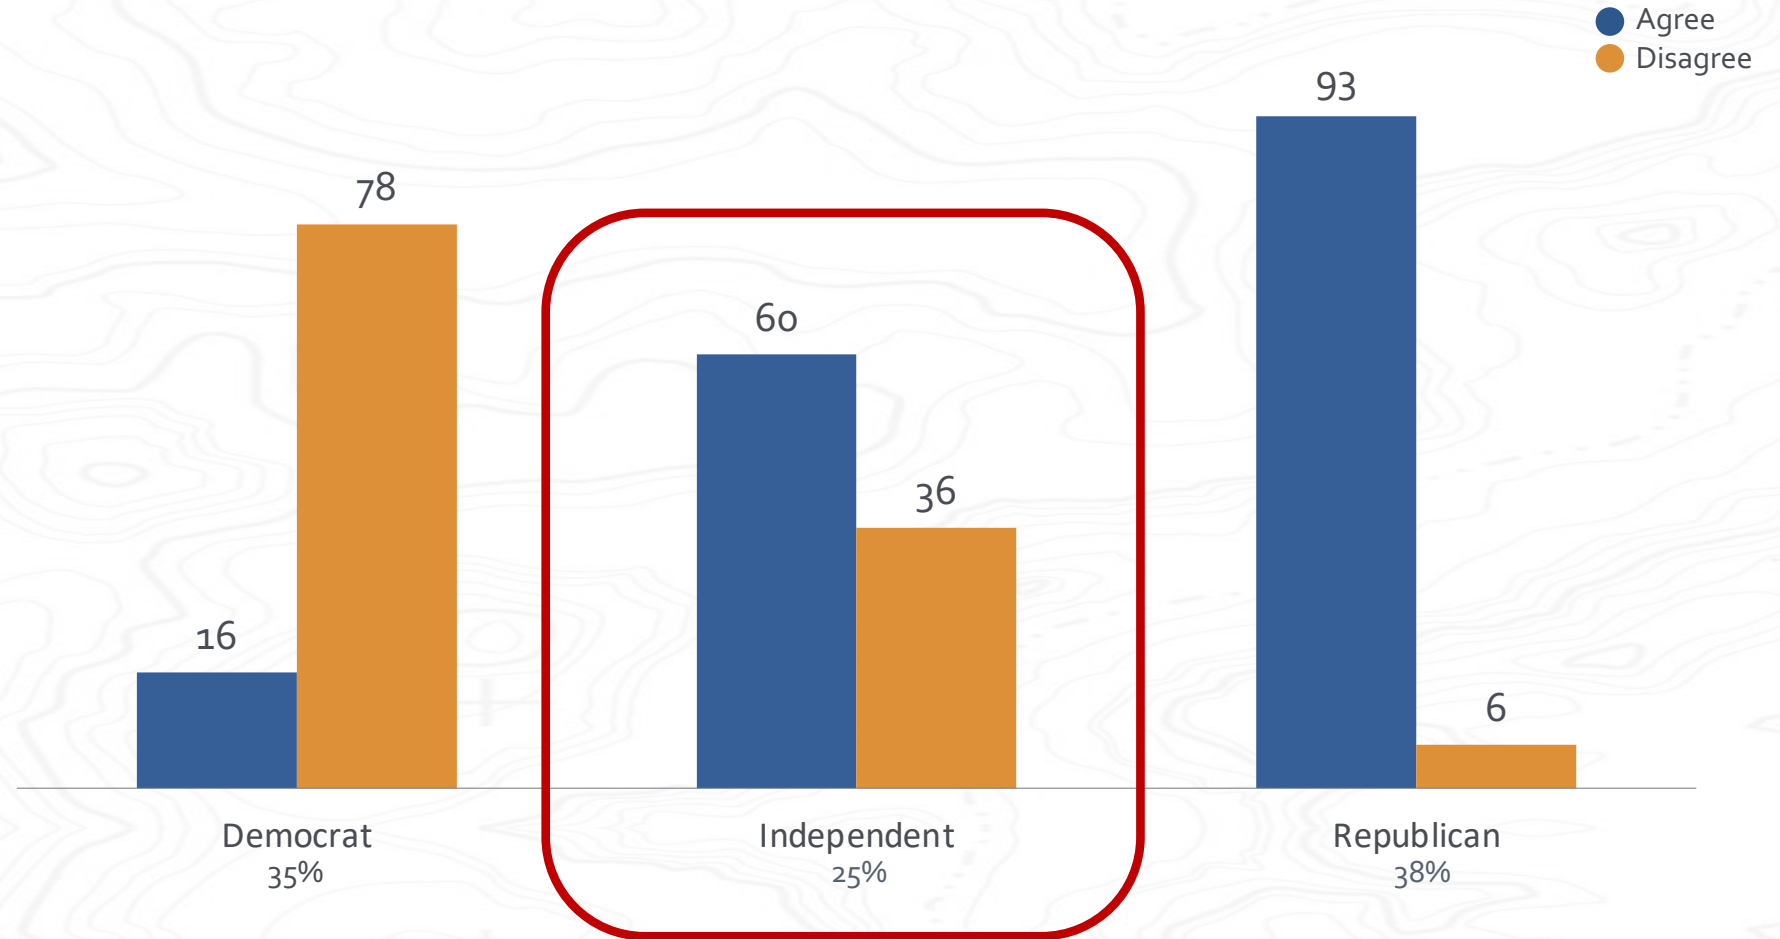

Upon taking office President Biden issued Executive Orders eliminating a number of tough Trump policies with regard to immigration. Because of this President Biden is to blame for the increased amount of illegal immigration.

PERCEPTION OF ISRAEL

As you may know, Joe Biden was key to the negotiations of the now ended Iran Nuclear Deal that was struck during the Obama Administration which gave Iran \$50 billion and failed to prevent them from pursuing nuclear weapons or stop their funding of terrorists. With this in mind do you favor or oppose Joe Biden's plan to re-enter the Iran Nuclear Deal?

IRAN NUCLEAR DEAL

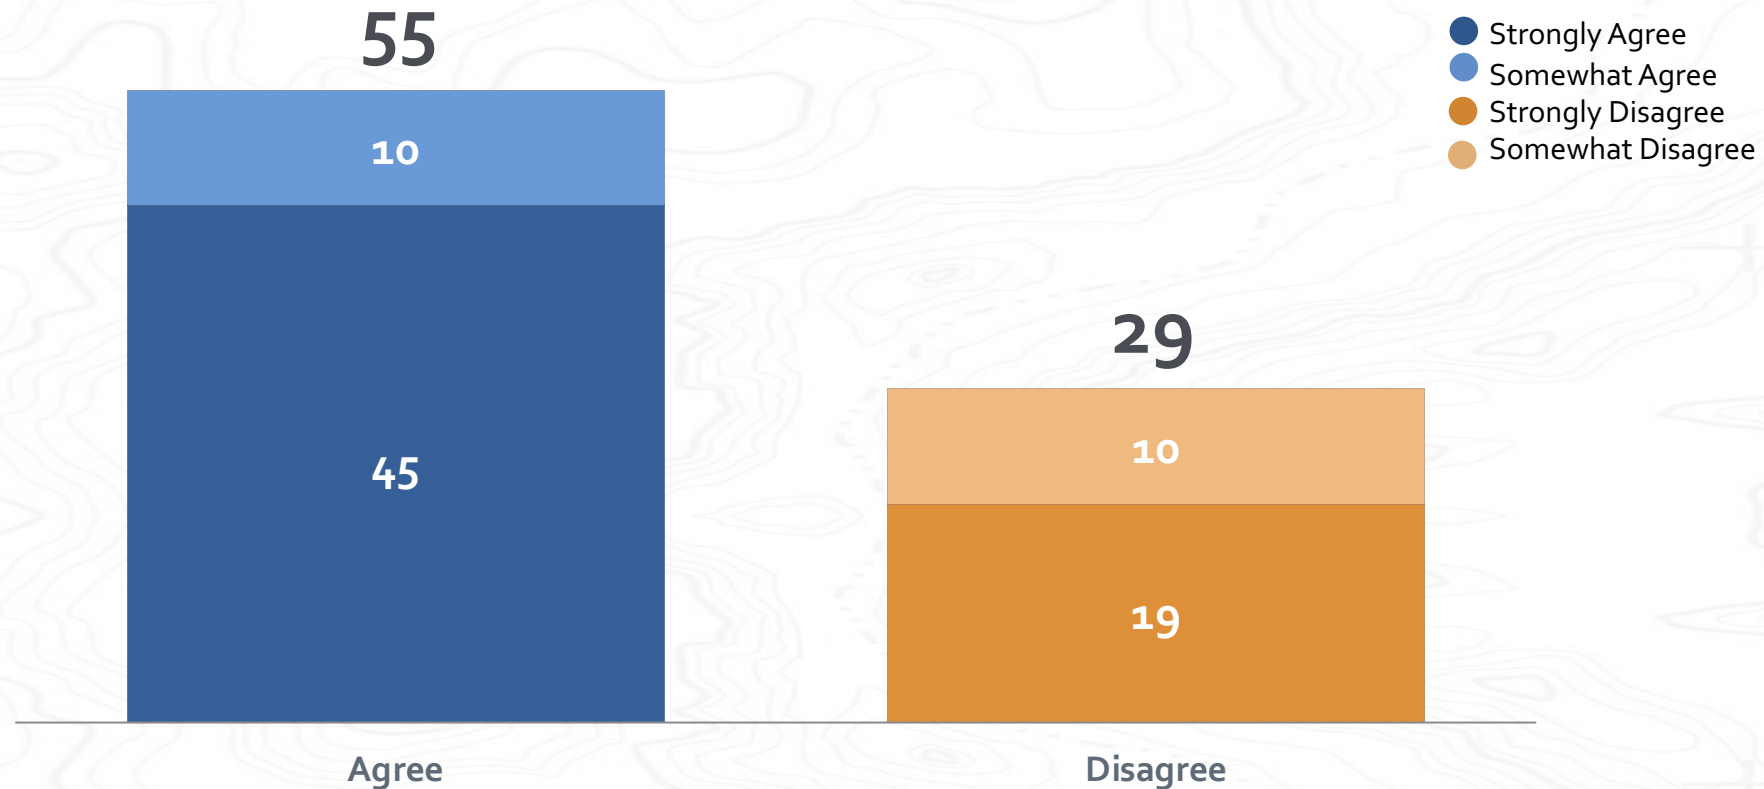

As you may know, Russian hackers recently shutdown a major pipeline here in America, causing gas shortages throughout much of the eastern half of the country. In light of this cyber-attack, which is the largest in our history, do you believe President Biden's response has been...

BIDEN'S RESPONSE ON HACKING

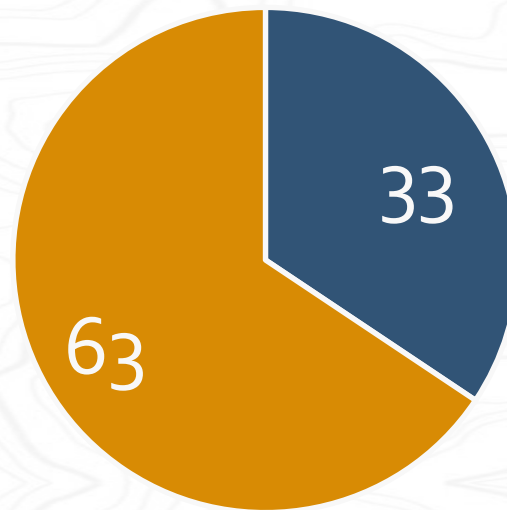

As you may know, a new report has shown that the COVID-19 virus likely could have resulted from a leak from a Chinese Virology lab. For the past year Democrats and the media have refused to take any claim of this possibility seriously and even called the very notion racist. With this in mind do you agree or disagree with the following statement? Democrats and the media have been far too weak on China by taking the Communist Government's propaganda as fact and calling American citizens racist for suggesting that the virus leaked from the Chinese Virology lab in Wuhan, instead of looking for the true origins of the virus that has killed hundreds of thousands of Americans.

LAB LEAK WEAKNESS

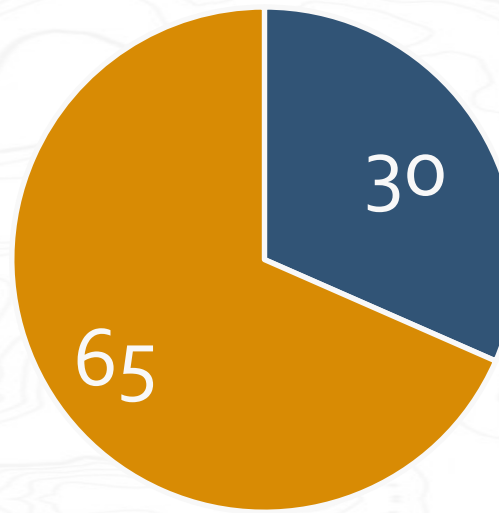

White Americans are inherently racist whether they know it or not because they benefit from the American culture of systematic racism and white privilege.
